**Colors: A Hymn Festival  
Sunday, October 4  
3:00 p.m.**

*with reflections written by Susan Palo Cherwien*

Each of the many colors in a stained glass window represent a unique point of reference that together create a composition that presents a complete image. So it is with the church. As we go about our daily lives, we encounter the presence of God in different ways at different times - in morning and evening, during triumph and trial, in the birth of a child and the death of a friend. To everything there is a season; a distinct color in the great tapestry of the life of the church. Come to experience and participate in the great song of the church.
